

4 NEW TECHNOLOGIES

Revolutionary Pool Cleaning Tools

Work Smarter, Not Harder!

SwivelSkim™

Floating Bi-Directional Skimmer Net

Just Push Out and Pull Back, Tough Jobs are Quick & Easy!

SwivelSkim's floating net captures huge amounts of debris with each push/pull pass. Empty the net only once. No more back-straining, lifting or side-to-side movements.

PolePivot™

Adjustable Pole Angle Connector

Multi-Purpose Pole End Tool Now Steers Vacuum Heads!

PolePivot's multiple features allow a net or brush to lock into the optimum angle desired. Its slots steer most vac-heads. And its flared hole guides mean no more pinched fingers!

EasySkim™

Long-Reaching Floating Net

Float Out, Drop In & Pull Back. It's easy as 1, 2, 3!

It floats! Capture debris anywhere within the full reach of the pole. No strength required. Everyone from children to grandparents can get the job done.

CoverCatch™

Debris Collecting Cover Accessory

Capture Debris While Rolling up a Floating Solar Cover

Eliminate the frustration of cleaning up debris that tumbles into the water as a floating solar cover is rolled up. Brush or hose debris off the cover onto the screen.
